Background and Summary

For the 2012 Funding Cycle the St. Louis County Children's Service Fund is funding forty-nine nonprofit and governmental agencies that deliver 100 mental health and substance abuse programs to St. Louis County children, youth, and their families. This allocation by the Board invested \$33 million over a 12 month period (January 1, 2012 – December 31, 2012) in positive outcomes for St. Louis County's children and youth. For more information please visit the Children's Service Fund's website at www.KeepingKidsFirst.org.

The St. Louis County Children's Service Fund is empowered by Missouri State Statutes RSMo 67.1775 and RSMo 210.861. According to the two State Statutes there 10 categories of services that are eligible for funding:

1. Temporary Shelter Services
2. Transitional Living Services
3. Services to Unwed and Teenage Parents
4. Respite Care Services
5. Crisis Intervention Services
6. School-Based Prevention Services
7. Home and Community-Based Intervention Services
8. Individual, Group, and Family Counseling Services
9. Outpatient Psychiatric Services
10. Outpatient Substance Abuse Treatment

Funded Projects

Project Name Children's Counseling Program

Project Description Licensed counselors assist children 4-19 who have been exposed to domestic abuse via play/talk therapy, EMDR, and TF-CBT. Parents of children younger than four are helped in addressing common concerns resulting from exposure to intimate partner violence in their home both past and present. Consultation is available for parenting skill development.

Eligibility Criteria Parents and their children who have experienced/witnessed domestic violence. ALIVE does not charge for services rendered. No person seeking services will be denied access due to inability to pay.

Service Area Individual, Group and Family Counseling Services

Project Name Nights of Safety

Project Description The "Nights of Safety" emergency shelter program provides shelter and basic necessities when there is no room available at local domestic violence shelters. The program focuses on assisting clients with finding a longer-term safe shelter and on helping clients create and achieve goals that will enable them to rebuild lives free of violence.

Eligibility Criteria Children accompanying their parents who are in immediate danger due to domestic violence but who are unable to secure shelter at one of the area's domestic violence shelters.

Service Area Temporary Shelter

Executive Director Dar Walker

Funded Project

Project Name Recovery of Children and Adolescents from Serious Emotional Disturbances through Family Interventions

Project Description Through intervention services of Crisis Intervention Team (CIT) police officers and follow-up one-on-one consultations provided by NAMI's Family Outreach Specialist, youths with early onset severe mental illness and serious emotional disturbances, and their families, will improve their

overall well-being. Our goal is to help families recognize the issues they face, prepare a plan to address those issues, and link with necessary community-based mental illness and substance abuse treatment services

Service Area Home and Community-Based Intervention

Almost Home, Inc.

Website www.almosthomestl.org
Phone Number 314-771-4663
Executive Director Rhonda Gray

Funded Project

Project Name From Transitional Living to Transforming Lives

Project Description Almost Home serves homeless teenage mothers aged 12 to 19, and their children. Providing transitional housing, counseling and support services to these young families, Almost Home is a safe, structured and compassionate environment. Young mothers, teamed with professional staff, develop emotional, social, economic, academic and life skills – so they will become self-sufficient, responsible adults and parents to their children.

Eligibility Criteria Homeless teen women who are pregnant or parenting and willing to actively participate in an education-based program to transition to independence and responsible parenthood.

Behavioral Health Response (BHR)

Website www.bhrstl.org
Phone Number (314) 628-2929
Executive Director Lesley Levin

Funded Project

Project Name St. Louis County Youth Connection Helpline

Project Description The helpline provides 24/7 crisis intervention, including mobile outreaches to home or community agencies to provide emotional support and referral information and linkage assistance for children, youth and their families in St. Louis County. The program is a collaboration between Youth In Need, the St. Louis County Safe Place Network and Behavioral Health Response. Consumer may call or text the helpline or go to a county Safe Place location for assistance.

Call (314) 628-2929
Toll Free (877) 928-2929
Text 4HLP to 31658

In addition to Helpline, BHR offers Mental Health First Aid training. This 12-hour interactive

course is created for the community and presents an overview of mental illness and substance use disorders in the U.S. It introduces participants to risk factors and warning signs of mental health problems, builds understanding of their impact, and overviews common treatments. Those who take the course are certified as Mental Health First Aiders. They learn a 5-step action plan encompassing the skills, resources and knowledge to help an individual in crisis connect with appropriate professional, peer, social, and self-help care

Funded Project

Project Name Family Support and Intervention Program

Project Contact Dr. Christi Moore (314) 746-0750 / (314) 746-0823

Project Description The Family Support and Intervention Program, as provided by Better Family Life, offers individual, family, and group counseling, as well as psychological assessments to juveniles (age 19 and under) and families. Based on the interventions/services to be offered, individual and/or group counseling services will address the following behavioral issues (not an exhaustive list): Attention Deficits and Impulsivity, Anger/Aggression/Bullying, Anxiety, Depression, Truancy, Trauma, Grief, and Associated difficulties (i.e., academic and/or emotional disturbances). Behaviors addressed in family counseling will address concerns of family stability, family communication problems, and other issues as indicated in the referral process. The Better Family Life Inc. Wellness and Clinical Services division is equipped with a Licensed Clinical Psychologist and Psychology trainees who will be available to provide psychological

assessments for designated youth. Referrals for assessments can be initiated to obtain objective information on the client's cognitive, achievement, and/or personality status. Products of the psychological assessments can be utilized for developing a working list of diagnostic concerns, determining client strengths and areas for improvement, treatment planning, and determination of the efficacy of client treatment.

BJC Behavioral Health

Website www.bjcbehavioralhealth.org
Phone Number (314) 729-4004
Executive Director Kim Gladstone (Vice President Corporate Health Services)

Funded Projects

Project Name Kirkwood School District Mental Health Services

Project Description The agency provides 8 Educational Support Counselors throughout the Kirkwood School District. The counselors work closely with school personnel to offer counseling and case management and resources to help keep families functioning, keep children in school, and provide a foundation of potential academic and personal success.

Service Area Home and Community-Based Intervention

Project Name School Consultation Service

Project Description BJC BH have a staff certified as a Facilitator and Coach in High Fidelity Wraparound that will do Consultation Services in the Special School District. BJC BH staff will coach school teams on the wraparound process and facilitate linkage with appropriate treatment that reaches beyond the scope of the school or therapeutic classroom. Consultations with SSD teams will improve the fidelity of the teams to evidence based practices.

Fidelity Wraparound is an evidence based practice described as a facilitation of the student and family's goals within a family support team. The purpose is to support and empower the youth and families through specific steps to address any future mental health issues and achieve the family's goals.

Service Area Home and Community-Based Intervention

Project Name Expansion of Child Psychiatric Services

Project Description The activities of this program include a comprehensive assessment with an agreed upon treatment plan with the client and psychiatrist. This program includes continued treatment sessions until symptoms are resolved and/or stability is reached and medication management is longer required.

Service Area Outpatient Psychiatric Services

Project Name	Expansion of Children's Services Delivery System
Project Description	<p>The core services include screening, assessment and intensive case management. The latter also includes The High Fidelity Wraparound evidenced-based practice model.</p> <p>The agency provides both direct therapy and case management services for deaf and hard of hearing children. Qualified clinicians have the ability to communicate directly with deaf and hard of hearing clients without the use of an interpreter.</p> <p>This project expanded the availability of Integrated Dual Diagnosis Treatment and Dialectic Behavioral Therapy to assist clients through individual and group therapies.</p> <p>This project have been expanded to include staff are working with the University of Missouri Saint Louis (UMSL) in intensive certified training in this trauma informed care model and evidence based practice. Modules includes psycho-education, relaxation, affect regulation, behavior management, cognitive restructuring and gradual exposure to traumatic memories.</p>

Bridgeway Behavioral Health

Website	www.bridgewaybh.com
Phone Number	(314) 395-7101
CEO	Michael Morrison

Funded Projects

Project Name	Bridges to Success (BtS) Intensive Outpatient (IOP)
Project Description	Bridges to Success (IOP) is a collaborative afterschool/ intensive outpatient program which combines intensive substance abuse education and outpatient treatment services with ancillary services that include family therapy, mentoring, psychiatry, job and life skills training, academic support, credit recovery, leadership development, parent group and case management.
Eligibility Criteria	The program is geared toward adolescents between the ages of 13 and 19 who have been identified as at-risk for illicit drug and/or alcohol abuse/dependence and who have been referred for treatment from the juvenile court, school districts, families, and/or self-referral.
Service Area	Outpatient Substance Abuse Treatment

Project Title	Bridges to Success (BtS) ACAT Program
Project Description	Bridges to Success ACAT (Assertive Community Addiction Treatment) is a community based model of substance abuse treatment for young people 13-19 being released from St. Louis County Justice Center, Juvenile Detention, the Division of Youth Services, residential treatment facilities, and/or are currently in a day-treatment/IOP program. ACAT is a composed a multidisciplinary team which provides traditional and non-traditional substance abuse treatment services primarily out of the office that are convenient for the family/adolescent. ACAT is assertive, long-term, substance abuse treatment, that emphasis educational/vocational supports, provides psycho-educational services, family therapy, places emphasis on community integration, and coordinates health care. ACAT's goal is to keep adolescents in recovery and out of hospitals, residential programs, and institutions.

Eligibility Criteria The program is geared toward adolescents between the ages of 13 and 19 who have been identified as at-risk for illicit drug and/or alcohol abuse/dependence, have experienced recurrent episodes of care in traditional residential and/or outpatient settings, and who have been referred for treatment by the St. Louis County Justice Center, Family Court, the Division of Youth Services, residential treatment facilities, and/or are currently in a day-treatment/IOP program.

Service Area Home and Community-Based Intervention Services

Project Title Bridges to Success (BtS) In-Custody Treatment

Project Description Bridges to Success In-Custody Treatment will provide In-Custody Substance Abuse Treatment and Re-Entry services for adolescents aged 17-19 who are moving through the St. Louis County Justice Center. In collaboration with the Justice Center and Queen of Peace, in custody treatment and re-entry services will be provided to offenders who are housed in the St. Louis County Justice Center. The In-Custody Treatment component of this program will utilize a traditional Intensive Outpatient Treatment model combined with intense case management and re-entry planning. An adapted version of this model will be used and crafted to fit the needs of the population based on length of stay and individual needs.

Eligibility Criteria This program is geared toward adolescents between the ages of 17 to 19 who are incarcerated at the St. Louis Justice Center and who have been identified as at-risk of illicit drug and/or alcohol abuse/dependence.

Service Area Outpatient Substance Abuse Treatment

Project Title Bridges to Success (BtS) Day-Treatment

Project Description Bridges to Success Day-Treatment is a day-treatment program which provides intensive substance abuse treatment/education, in a 6 hour per day, 5 days per week setting, as well as ancillary services that include family therapy, psychiatry, mentoring, job and life skills training, academic support, credit recovery, leadership development, parent group and case management. Clients will be assessed using the GAIN assessment and upon completion of the assessment a comprehensive treatment plan and re-entry plan will be collaboratively developed by the treatment team.

Eligibility Criteria The program is geared toward adolescents between the ages of 13 and 19 who have been identified as at-risk for illicit drug and/or alcohol abuse/dependence, who are in need of a more intense level of care than traditional outpatient, and who have been referred for treatment from the juvenile court, agencies, DJS, school districts, families, and/or self-referral.

Service Area Individual, Group, and Family Counseling

CHADS Coalition for Mental Health

Website www.chadscoalition.org

Phone Number (314) 952-2046

Executive Director Marian McCord

Funded Projects

Project Name Dora Project

Project Description The Dora Project provides support and guidance to families in crisis due to the mental health concerns of their child. With a primary goal of preventing suicide, we provide:

- An understanding professional to hear parent's concerns
- Support prioritizing needs, setting goals and planning for improved outcomes
- Short-term therapy and support groups for parents and youth
- Consultation with professionals regarding mental health concerns
- Presentations for parents, schools, community groups or agencies

Service Area Home and Community-Based Intervention

Project Name Olweus Bullying Prevention

Project Description The Olweus Bullying Prevention Program is a whole school program that has been proven to prevent or reduce bullying throughout the school. The program goal is to change the norms around bullying behavior and to restructure the school setting so that bullying is less likely to occur or be rewarded. OBPP is used at the school, classroom, and individual levels and includes methods to reach out to parents and the community for involvement and support.

Service Area School-Based Prevention

Project Name	Signs of Suicide (SOS)
Project Description	SOS is a nationally recognized, suicide prevention and depression-screening program for middle & high school students. It teaches students how to identify the symptoms of depression and suicide in themselves or their friends. It encourages help seeking, using the ACT (Acknowledge, Care & Tell) technique
Service Area	School-Based Prevention

Child Center ~ Marygrove

Website	www.childcentermarygrove.org
Phone Number	314-837-1702
Executive Director	Sister Helen Negri

Funded Projects

Project Name	Crisis Care
Project Description	Marygrove provides crisis care for children who are in need of emergency care due to homelessness, potential abuse/neglect, parental stress, family illness, incarceration of a parent/guardian, etc. It is a 24/7 program offering supervised care, room and board, and individualized treatment and planning for each child. Counseling and referrals to community resources are provided based on individual needs. Parenting teens are accepted into this program with their dependent children.
Eligibility Criteria	Males and female, birth to 19 years old, and their dependent children, if applicable. Referrals to the program may be made to the Director of Crisis Services, 314-830-6240 or 314-830-6214.
Service Area	Temporary Shelter

Project Name	Transitional Living Services
Project Description	Marygrove provides transitional living services that focus on developing independent living skills for abused/neglected, mentally ill, and homeless children ages 16-19. The services include group homes, scattered site apartments, individualized treatment and therapy, in addition to providing life skills training and experiences to all of the youth. Parenting teens with their dependent children are accepted into this program.
Eligibility Criteria	Males and females ages 16-19, and their dependent children, if applicable. Referrals to the program may be made to the Director of Transitional/Independent Living Services, 314-830-6215.
Service Area	Transitional Living

Children's Advocacy Services of Greater St. Louis

Website www.stlouiscac.org

Phone Number (314) 516-6798

Executive Director Jerry Dunn, Ph.D.

Funded Projects

Project Name Trauma Informed System of Care - Therapeutic Services

Project Description The agency provides individual and family therapeutic services. The interventions include Trauma-Focused Cognitive Behavioral Therapy (TF-CBT) Integrated Treatment for Complex Trauma (ITCT), Parent-Child Interaction Therapy (PCIT), Trauma-Informed Play Therapy (TI-PT), and individual treatment for Children with Sexual Behavior Problems (CSBP). The agency also provides group programming for children, adolescents and caregivers including Families Learning About REcovery Strategies (FLARES) and group treatment for children and adolescents with Sexual Behavior Problems (CSBP, AISB). Both offices are conveniently located near public transportation and offer both evening and Saturday hours. Most clients will be seen weekly; however, clients may be seen either more or less frequently as their treatment plan indicates.

Eligibility Criteria Children/youth ages 2 to 17 from St. Louis County with a disclosed or substantiated traumatic event, or children/youth ages 3 to 12 from St. Louis County who display sexual behavior problems.

Service Area Individual, Group and Family Counseling Services

Project Name Forensic Services and Child and Family Traumatic Stress Intervention (CFTSI)

Project Description The agency provides forensic and CFTSI services to children 3-18 years old who are alleged victims of sexual abuse, severe physical abuse, and/or witness to a violent crime, and their caregivers. Comprehensive forensic interviews are conducted in a child-friendly, neutral setting by a skilled interviewer who is developmentally and linguistically appropriate, allows for the child's narrative recall of events, and is culturally competent.

Eligibility Criteria The target population to participate in the Child and Family Traumatic Stress Intervention is children 3-18 who have participated in a forensic interview and their non-offending caregiver. The sole criteria for a referral to this intervention is that the child has experienced a potential traumatic event.

Service Area Home and Community-Based Intervention

Project Name Trauma Informed System of Care - Psychiatric Services

Project Description The purpose of CASGSL's Psychiatric Services program is to provide St. Louis County CASGSL clients with both psychopharmacological services and therapy services from a psychiatric-mental health advanced practice nurse (PMHAPRN). PMHAPRN providers who work in collaboration with psychiatrists provide an ideal solution to the lack of available psychiatric services. Clients with PTSD may present with disabling symptoms, as well as with comorbid psychiatric illnesses. The clients may already be receiving pharmacological interventions for comorbid conditions or for symptoms related to PTSD. Alternatively, their current symptoms may be so disruptive as to lessen or impede the effectiveness of psychotherapy. CASGSL activities and interventions will include evaluation of current medications for efficacy, side effects and potential drug-drug or drug-food interactions and provision of prescriptive services when symptoms are interfering with psychotherapy effectiveness. The PMHAPRN provider will also provide therapy, allowing her to be maximally effective both in the provision of psychiatric services to clients and in collaborating with the other clinical staff. The client will have an assigned therapist who, during his/her initial evaluation or throughout the course of caring for his/her client, may make a referral to psychiatric services for pharmacological intervention. The PMHAPRN will collaborate with the referring therapist to obtain the presenting problem, assessment results, symptom history, medication use and diagnostic impression. The PMHAPRN will also meet with the client and client caregivers to obtain further information regarding behavior, symptoms and side effects (if taking medication). A brief problem-focused physical exam, including an evaluation of physical signs of adverse effects will take place. Once the assessment is complete, the PMHAPRN will meet with the referring therapist to discuss a treatment plan and present the plan and psychopharmacology education to the caregiver and client, as appropriate. Communication with primary care physicians and other involved healthcare providers will also take place.

Eligibility Criteria Children/youth ages 2 to 17 from St. Louis County with a disclosed or substantiated traumatic event, or children/youth ages 3 to 12 from St. Louis County who display sexual behavior problems. This program accepts referrals from other CSF funded agencies.

Service Area Outpatient Psychiatric Services

Children's Foundation of Mid-America

Executive Director James Thurman

Funded Projects

Project Name Family Solutions for Kids

Project Description Family Solutions for Kids is a program offered in collaboration with Every Child's Hope. The program provides community-based services to youth struggling with mental health, substance abuse, family and school related issues. Services will include: assessment, case management, mentoring, parent education/coaching, therapy, psychiatry and community resource linkage.

Intake Number (314) 504-1935

Service Area Home and Community-Based Intervention

Project Name	Therapeutic Mentoring and Family Support
Project Description	The Therapeutic Mentoring Program serves youth who are at risk for child abuse/neglect, school failure or dropout, teenage pregnancy, homelessness, delinquency, substance abuse and/or other poor outcomes in home, school and community. Activities are designed to develop positive problem solving skills, conflict resolution skills and pro-social behaviors. Mentors meet with the youth, one on one, at least once weekly for up to 4 hours for a period of at least 36 weeks and up to 12 months.

Executive Director	Karen Nolte

Funded Projects

Project Name	Adoption Focused Mental Health
Project Description	The program provides services to children who are adopted, in foster care, or living in alternative family situations such as with grandparents or other relatives. Individual and family therapy and psychological evaluation services are provided for children with a history of child abuse and neglect and are experiencing significant mental health issues.
Service Area	Individual, Group and Family Counseling Services

Project Name	Respite Care Services and Family Support
Project Description	The agency provides facility-based Respite services to children with significant, multiple developmental disabilities. The agency also provides Family Support services to these children and families as well as those with behavioral health needs. The child and family will be assessed for their needs for respite care and other family supports as well as provided direct individual, couple or family counseling services and other individualized family supports where appropriate.
Service Area	Respite Care

Project Name	Nurturing Teens
Project Description	The program prepares pregnant/newly parenting teens for parenthood by supporting a healthy pregnancy, attending to immediate needs and stabilizing living environments using comprehensive case management. The program's evidence-based, family-centered parenting curriculum helps build protective factors and teach appropriate parenting and child rearing.
Service Area	Services to Unwed and Teen Parents

Project Name	Nurturing Kids
Project Description	This program provides services to help vulnerable families build assets that will decrease the likelihood of child abuse and neglect and increase safe and healthy child development through comprehensive case management. The program uses an evidence-based, family-centered parenting curriculum to help build protective factors and teach appropriate parenting.
Service Area	Home and Community-Based Intervention

Community Psychological Service

Website	www.umsi.edu/cps
Phone Number	(314) 516-5824
Executive Director	Robert Harris, Ph. D.

Funded Project

Project Name	Child and Adolescent Psychological Evaluation Services
Project Description	CPS provides psychological evaluation services and treatment recommendations for learning disabilities, and for behavioral and emotional difficulties such as anxiety, depression, aggression, school related problems, peer and family relationship problems, poor attention, hyperactivity, and eating concerns. We also offer violence risk assessments, diagnostic assessments, psychosexual evaluations and intellectual assessments.
Eligibility Criteria	Children and adolescents age 3 to 19 who reside in St. Louis County and are in need of a psychological evaluation.
Service Area	Individual, Group, and Family Counseling Services

Covenant House Missouri

Website	www.covenanthousemo.org
Phone Number	(314) 533-2241
Executive Director	Suzanne Wagener

Funded Project

Project Name	Temporary Shelter Services
Project Description	The agency assists homeless, runaway and at-risk youth to enable them to become independent, productive and contributing members of society. Services are focused intently on homeless and at-risk youth, ages 16-21, for which other resources do not exist. The service framework of the agency includes outreach, emergency shelter and transitional housing along with support services ranging from education, employment and counseling services to life skills training, recreational activities and community service projects.

Eligibility Criteria The agency's Open Intake policy dictates that clients have access to all programs through self-referral and are not required to obtain a formal recommendation from another service provider or their service history. The agency accepts youth between the ages of 16-21 regardless of their mental health status or substance abuse history. There are no limitations of service eligibility based on gender or income. CHMO serves youth who are outside of the foster care, juvenile justice, or mental health systems.

Funded Projects

Project Name The Transitional and Independent Living Program

Project Description Transitional and Independent Living Programs provide a continuum of apartment based housing and support services to older youth, helping them to learn the skills necessary for healthy independence within the context of a supportive team of professionals and an individualized plan tailored to their unique needs and strengths. The Aging Out Program provides a variety of training and support services, especially for youth preparing to leave the foster care system, aimed at improving educational attainment, independent living skills, and self-advocacy.

Eligibility Criteria Eligible youth include St. Louis at-risk youth (both male and female), ages 15-19, such as those who are preparing to age out of foster care, homeless youth who are not ready to live on their own without support, youth without parents, and disconnected youth who have no adult supervision.

Service Area Transitional Living

Project Name The Parenting Transitional Living Program

Project Description The Parenting Transitional Living Program (PTLP) supports homeless teen parents in a scattered-site, transitional living setting, providing housing, case management, food, basic life skills training, 24-hour on-call crisis intervention and basic necessities while training them to be effective parents through in-home and group sessions using the evidence-based, Born to Learn curriculum. In community settings, The agency will support at-risk teen parents in their placements throughout St. Louis County by providing in-home training and community-based group sessions using the evidence-based Born to Learn curriculum.

Service Area Services to Unwed and Teen Parents

Project Name The Family Focus Program

Project Description The Family Focus Program will provide in-home family and individual therapy, case management, resource linkage, respite care, psychiatry, 24-hour on-call clinical support, planned and emergency crisis intervention, emergency funds, and related support within the context of an individualized, family-based plan of care aimed at preventing a return to residential treatment or other more restrictive care setting.

Service Area Home and Community-Based Intervention Services

Project Name Youth Emergency Services (YES)

Project Description The Youth Emergency Services (YES) Program is a crisis shelter that serves homeless, runaway, abused, and neglected youth, as well as youth at risk of abuse or neglect. YES provides a broad range of services, including food, safe shelter with 24-hour supervision, clothing, case management, resource linkage, therapy (individual, group, and family), and in-home aftercare services.

Eligibility Criteria Eligible clients include at-risk youth (both male and female) ages 11-19 that are in crisis, including youth who are homeless, those who have been victims of abuse or neglect, those experiencing family crisis or trauma, and those who are disconnected from family or adult supports. Services are provided irrespective of custodial status.

Service Area Temporary Shelter Services

Project Name Street Outreach Services (SOS)

Project Description Epworth's Street Outreach Program provides center-based and street-based outreach to homeless, runaway, disconnected and at-risk youth. Services include referral & resource linkage, concrete aid, crisis counseling & support, and related care aimed at increasing safety and connecting youth with stable shelter/housing.

Eligibility Criteria Eligible clients include homeless, runaway, disconnected, and at-risk youth (both male and female) up to age 19.

Service Area Home and Community-Based Services

Project Name Therapeutic School

Project Description Epworth's Therapeutic School Program provides education, therapy, rehabilitation, and/or transition services to students attending its Purchase of Service special education program or its Webster Groves School District satellite classroom, both located on Epworth's Webster Groves campus.

Eligibility Criteria Eligible students include elementary, middle, and high school age students (both male and female) whose Individualized Education Plans call for Purchase of Service schooling.

Service Area Home and Community-Based Services

Project Name School Links and First Steps

Project Description The School Links program provides in-home counseling, skill-building, and parenting support to families of school-aged children who are experiencing challenges related to their child's behavior and functioning at home and school. Our goal is to support the child, family and school in order to build the child's and families' skills and to improve their overall functioning.

Project First Steps provides in-home counseling, skill-building and parenting support to families who are experiencing challenges related to children's behavior, family stress and conflict, and issues related to mental illness or disabilities. Our goal is to improve parenting skills, reduce parental stress, and improve the functioning of all family members.

Eligibility Criteria School Links serves families of children ages 5 to 13 who reside in one of our thirteen partner districts in St. Louis County (Affton, Bayless, Brentwood, Ferguson-Florissant, Hancock Place, Lindbergh, Maplewood/Richmond Heights, Mehlville, Normandy, Ritenour, Riverview Gardens, University City, and Webster Groves). Families, school staff or community agencies can make referrals by calling 314.644.5055 x 120.

Project First Step serves families with children ages birth to 13 throughout St. Louis County. Families, school staff or community agencies can make referrals by calling 314.644.5055 x 120.

Service Area Home and Community-Based Intervention

Project Name Group Parenting Education and Support

Project Description Family Support Network will provide Group Parenting Education and Support services to the youth consumers of the St. Louis County Youth Programs at the Spanish Lake site. Using the Active Parenting curriculum, young parents will participate in four sessions of group parenting education and support with the goal of improving parental knowledge and skills, reducing parental stress, and improving outcomes for children. Services will be provided at the Doors to Success program and/or the Youth Resource Center in Spanish Lake.

Eligibility Criteria This program will serve young parents who live in St. Louis County, are parenting children ages 13 and under, and are customers of St. Louis County Youth Programs in Spanish Lake.

Service Area Services to Unwed and Teenage Parents

Every Child's Hope

Website <http://everychildshope.org/>

Phone Number 314-427-3755

Executive Director Michael Brennan

Funded Projects

Project Name Steppingstone

Project Description The Steppingstone Program helps youth achieve self-sufficiency by acquiring independent living skills to reintegrate into their communities. Youth are served through three distinct phases 1) group home living, 2) structured, on-campus apartment living, 3) unstructured, off-campus apartment living. Maternity services are also available at all three phases.

Eligibility Criteria The Steppingstone Program serves males and females ages 16 to 20 who are residents of St. Louis County. Youth must not be in the custody of the State of Missouri and free from current substance abuse and severe mental health challenges.

Service Area Transitional Living

Project Name Family Solutions for Kids

Project Description Family Solutions for Kids is a program offered in collaboration with Children's Foundation of Mid-America. The program provides community-based services to youth ages 4-19 struggling with mental health, substance abuse, family and school related issues. Services will include: assessment, case management, referral for mentoring, parent education/coaching, therapy, psychiatry and community resource linkage.

Service Area Home and Community-Based Intervention

Funded Projects

Project Name St. Louis County Child Abuse Prevention Project

Project Description The St. Louis County Child Abuse Prevention Project (CAPS) is an initiative to help prevent child abuse and neglect within St. Louis County families as well as help children heal from the traumatic effects of victimization. This will be accomplished by implementing one of the following interventions: Trauma Focused-Cognitive Behavioral Therapy, Parent Child Interaction Therapy and Parenting Wisely. Expected outcomes include improved relationships between parents and children; increase in parental knowledge; prevention of child abuse/neglect; and development of self-management skills. Services are offered in the home of the client or in an office or community setting.

Service Area Individual, Group and Family Counseling Services

Project Name St. Louis County Volunteer Resource Parents

Project Description The St. Louis County Volunteer Resource Parents (SLVRP) is a mentoring model that addresses the challenges and issues faced by expecting and parenting teens by assigning program participants a trained volunteer mentor and a Youth Outreach Specialist who helps the youth set personal goals for health, education, parenting, and self-sufficiency. Youth participate in a monthly parenting and life skills classes, an incentives program and may have access to child Individual Development Accounts to help build financial assets. Services take place in the home of the client, or in a public setting such as a school or community center.

Eligibility Criteria Teens expecting a baby, or who currently have a baby under the age of one year old.

Service Area Services to Unwed and Teen Parents

Project Name PathBuilders

Project Description PathBuilders leverages strategic partnerships within the St. Louis County community to address the underlying social and environmental problems and stressors (e.g. un- or underemployment, housing, childcare, healthcare) which are shown to lead to chronic, generational child maltreatment. It also provides families with the behavioral tools and emotional strength to sustain a positive, safe and successful future for themselves and their children. The goal, during this 12-24 month process, is to help families who are at risk of becoming chronic child abusers move from a state of perpetual crisis to a sustainable situation in which they possess the parenting and personal skills, knowledge, and resource accessibility to advocate for themselves in order to maintain a positive course toward a successful future. The model and the specific strategies selected for use with families relies heavily on Evidence-Based Practices. Evidence-Based and Promising Practices utilized include:

- HomeBuilders
- Motivational Interviewing
- Parent-Child Interaction Therapy
- Parenting Wisely
- Trauma Focused Cognitive Behavioral Therapy

One of the foundations of PathBuilders is a team approach with the central focus on the family. Members of the Team include the family, a Family Coach, Community Partners, and a Licensed Therapist. Services are conducted in the home of the family, and within the community.

Eligibility Criteria PathBuilders specifically targets low-income families in St. Louis County already engaged in child maltreatment through at least one hotline call. These families may be at risk of more chronic maltreatment, as indicated by a minimum number of known risk factors, as determined through assessment.

Service Area Home and Community-Based Intervention

Project Name Therapeutic Preschool Day Treatment

Project Description The Therapeutic Preschool Day Treatment program one of three such programs in the State of Missouri. It is designed to provide therapeutic preschool for children three to five years of age who are experiencing severe emotional disturbances and behavioral problems, often as a result of experiencing or witnessing abuse. These children are not able to attend a typical preschool setting due to these extreme behavior and/or sociability problems. The intent of the program is to help children realize that they can be successful learners by remaining in their present academic setting without disruption and then transition to their next academic location. Services include: classroom activities guided by the evidence based practice HighScope curriculum (to assist in social-emotional development and school readiness); small group therapy; individual play therapy; family in-home therapy; literacy education; speech and occupational therapy. Van transportation is provided to pick up the child in the morning and take the child back home or to another day care facility in the afternoon. Lunch and breakfast also provided.

Eligibility Criteria Children referred are three to five years of age and are not usually able to participate in a “typical” preschool setting due to their social, emotional, or behavioral challenges. Parents of these children are served through family therapy and parent education.

Service Area Home and Community-Based Intervention

Foster & Adoptive Care Coalition

Website www.foster-adopt.org
Phone Number 800-367-8373
Executive Director Melanie Scheetz

Funded Project

Project Name Crisis Intervention

Project Description 24-Hour access to Family Intervention Specialists for St. Louis County adoptive & pre-adoptive families who are in crisis and at risk for out-of-home placement for the child or planning reunification of a child returning from out-of-home placement. Services will help families:

1. manage immediate crises and safety plan
2. improve child, parent, and sibling relationships
3. increase family self-management skills
4. prevent disruption.

Eligibility Criteria A family in crisis, with at least one child age 3-19 pre- or post-adoptive/guardianship through foster care.

Service Area Home and Community-Based Intervention

Project Name 30 Days to Family

Project Description A short term intervention with the purpose to place children with relatives/kin upon entry into the foster care system. The initial search is for grandparents, with a goal of identifying and exploring at least 80 additional relatives and 2-3 placement options. Maternal and paternal relatives are explored with equal interest. Every effort is made to keep siblings together and preserve a child's important relationships with family, friends, and supportive adults.

Eligibility Criteria Child has entered or re-entered the foster care system under St. Louis County Jurisdiction and is between the ages of 0 and 17.

Executive Director Dr. Michael Meehan

Funded Projects

Project Name Nurturing Teens

Project Description	The program prepares pregnant and newly parenting teens for parenthood by attending to their immediate needs, stabilizing their living environment, and providing parenting education. Services includes: safe housing, nutritious meals and medical care, educational support (tutoring, IEP advocacy), vocational and employment guidance, therapy, planning for a safe home and permanency or independent living. Parenting education is available for youth up to the age of 19 involved in a pregnancy or currently parenting an infant or toddler.
Eligibility Criteria	Pregnant and parenting youth, up to 19 years of age, who are residents of St. Louis County. Home-based services and parenting education are open to mothers and fathers.
Service Area	Services to Unwed and Teen Parents

Project Name	Nurturing Kids
Project Description	Nurturing Kids serves children who are at risk of child abuse and neglect and their families. Families and Case Managers work together to devise a service plan that addressed the immediate safety of the children and the needs and strengths of the family. Case Managers provide direct services to help vulnerable children and families build skills that will reduce the likelihood of child abuse and neglect. Direct services may include counseling, housing and utility assistance and parenting education. Referrals to specialized programs will be provided including medical care, mental health services, employment, and housing and material goods assistance.
Eligibility Criteria	Services available to St. Louis County families with children ages 0-5. Program eligibility is determined through a basic assessment of the family's situation. Assessment includes documentation of risk and protective factors and the completion of the Protective Factors Survey
Service Area	Home and Community-Based Intervention

Great Circle

Phone Number	314-968-2060
Executive Director	Vince Hillyer

Funded Projects

Project Name	Respite Services for Clients with Autism
Contact	314-256-4920
Project Description	The agency provides facility-based respite services for children with emotional and behavioral disorders. Respite care is also conceptualized as a strategy to support families who are experiencing distress, thereby preventing the placement of children in out-of-home care, and avoiding family breakdown.
Eligibility Criteria	The target population for this project includes any St. Louis County residents, ages 5 to 17 that are diagnosed with autism and/or a developmental disability.
Service Area	Respite Care

Project Name	Fostering Futures
Contact	314-956-0362
Project Description	Fostering Futures is designed to help children remain in one foster home for a year. Working with a Behavioral Specialist allows children with emotional and behavioral problems, and their foster families, to work through behavioral disruptions that would lead to the children being removed from the foster home.
Service Area	Home and Community-Based Intervention

Jewish Family & Children's Service

Website	www.jfcs-stl.org
Phone Number	314-993-1000
Executive Director	L. Louis Albert, MSW, LCSW

Funded Projects

Project Name	Individual, Group and Family Counseling Services
Project Description	Individual, group and family therapy (with the child present) is offered for counseling issues. Psychological Testing is offered in the following categories: psycho diagnostic assessment (such as school readiness testing); developmental and behavioral assessment (to identify children who should receive a more intensive assessment); psycho educational assessment (a "full battery" covering multiple areas of functioning and personality). School-based services are offered including observation of children; individual short-term interventions with children; group programming for children and/or parents; crisis response; interdisciplinary staffing; information and referral; and educational presentations to parents.
Service Area	Individual, Group and Family Counseling Services

Project Name	Home and Community-Based Intervention Services
Project Description	School-Based on-site counseling and consulting services are offered to seven (7) Jewish Day Schools, two (2) Early Childhood Education sites and three (3) congregational pre-schools, as well as Normandy, Affton, Ritenour, Parkway, Ladue and University City School Districts. School-based services include: observation of children in the classroom; individual short-term interventions with children; group programming for children and/or parents; crisis response; interdisciplinary staffing; information and referral; and, educational presentations to parents.
Service Area	Home and Community-Based Intervention Services

Project Name	School-Based Prevention Services - The Child Abuse Prevention Program (CAPP)
---------------------	--

Project Description The Child Abuse Prevention Program (CAPP) curriculum is offered on site at schools, daycare facilities and community organizations in St. Louis County. CAPP teaches child safety, sexual abuse recognition and sexual abuse prevention. The Children's Programs include: Safe Touch Plus (age three and special needs children of all ages); Safe Touch (ages four through six); Safe-T (ages seven through nine); Safe Teen (ages 10 through 12); Safe Surf (ages 10 through 19) and Safe Relations (ages 12-19). The Children's Programs include identifying private body parts; distinguishing between appropriate and inappropriate touching, learning and practicing response skills; understanding tricks used by potential abusers; identifying people who can offer help. Safe Surf works specifically to prevent the online sexual exploitation of children. Safe Relations is designed to teach students skills needed in order to prevent sexual harassment (focused in the school environment) and what to do if they are a victim.

Service Area School-Based Prevention Services

Project Name Outpatient Psychiatric Services

Project Description Services include a comprehensive intake and assessment by a child psychiatrist and an agreed upon treatment plan. Every child or adolescent who receives medication will be monitored by the child psychiatrist and will be seen until the symptoms are stabilized and functioning levels are improved.

Project Name Weinman Shelter Children's Program Mental Health Services

Project Description Specialized mental health services for children and their mothers who have experienced domestic violence will be provided by this program. The program will provide age- specific group therapy, individual therapy, and family to victims of domestic violence.

Eligibility Criteria Must reside at the shelter or be enrolled in the shelter's follow-up program to receive services.

Service Area Individual, Group and Family Counseling Services

Kids In The Middle

Website www.kidsinthemiddle.org

Phone Number (314) 909-9922

Director Judy Berkowitz

Funded Project

Project Name	Counseling Services for Children of Divorce
Project Description	Kids In The Middle (KITM) helps children, parents and families thrive during and after divorce through counseling, education and support. When participating in group, individual and family counseling, children express their thoughts and feelings about the changes in the family, learn coping skills for managing the transition and find relief from anxiety and depression. Because parents play an integral role in helping their children adjust, therapists also work with the parents through individual and family counseling, co-parenting counseling, education and support groups.
Eligibility Criteria	Kids In The Middle works with children ages three through eighteen and their parents. If parents have joint legal custody, both parents must consent to treatment for the children. Clients can self-refer or can be mandated to participate.

Project Name Temporary Shelter Program

Project Description The Temporary Shelter Program provides 30 day temporary shelter to youth who are experiencing behaviors that have placed them at risk of entry into foster care and/or the juvenile justice system. These high-risk behaviors may include property damage, assault, aggression at home and/or school, poor school attendance or suspension, and posing a risk to family and/or siblings. Shelter services include psycho-educational groups and individual counseling for the youth. The family will receive counseling and case management services weekly in the home while their child is in the shelter.

Eligibility Criteria Males and females, ages 17 - 19, and their families who are residents of St. Louis County are eligible to receive services. The youth must be in the legal custody of their parent/guardian and must be at risk of entry into foster care and/or the juvenile justice system.

Service Area Temporary Shelter

Project Name Transitioning Teens Program

Project Description This program provides up to 30 day temporary shelter to youth who are currently homeless. If reunification is possible, the youth will be enrolled in the Back on Track program. If reunification is not possible, the youth will receive individual counseling, psycho-educational groups, and case management services designed to locate a more permanent living situation such as Transitional Living or Independent Living.

Eligibility Criteria Males and females, ages 17-19, who are residents of St. Louis County who are currently homeless. Pregnant girls will be accepted only during their 1st trimester of pregnancy. Referrals are accepted 24 hours a day, 7 days a week.

Funded Project

Project Name Specialized Autism Respite Services

Project Description TouchPoint Autism Services provides in-home respite support for children with an autism spectrum disorder and their families. Services are uniquely designed to help manage familial stress, improve the child's functional abilities, and increase natural supports. TouchPoint matches families with autism-trained, compatible respite providers (Individual Support Assistants). Respite providers utilize behavioral intervention techniques designed to address the unique challenges associated with autism and to support the child in achieving their personal goals.

Eligibility Criteria Eligible participants are St. Louis County children, ages 2 to 19, with an autism spectrum disorder diagnosis.

Project Name Comprehensive Approach to Unmet Mental Health Needs of Infants and Preschool Children in Foster Care, Phase II, "SYNCHRONY Project"

Project Description The SYNCHRONY Project consists of two primary intervention tracks; 1) Evidence-based parenting education and 2) Child /Parent psychiatric support (comprehensive and continuous). The child-parent mental health assessment, provided by a child psychiatrist or psychologist with special training or experience in infancy and early childhood, includes comprehensive and collaborative intervention planning and mental health care for: a) infants and preschool children in foster care; and b) when reunification is under consideration, their parents-of-origin. Families referred to the parenting education program may also proceed with the child/parent psychiatric evaluation whenever indicated.

Eligibility Criteria Children age birth to 5 years placed, at risk for placement, or transitioning out of foster care in St. Louis County, who have unmet needs for: a) mental health services; and/or b) evidence-based interventions to provide education and support to their parents-of-origin. Eligible referrals must be made through the Family Court of Saint Louis County or the Children's Division of the Missouri Department of Social Services.
